## Your benefits

### Economical

Our CarePacks ensure a long service life and minimum downtime for your machines thanks to regular inspections and maintenance. Higher efficiency and increased residual value go without saying.

### Flexible

You choose the range and duration of the agreement. Inspections and maintenance are arranged to suit your timetable and construction site planning, so avoiding unnecessary downtime.

### Convenient

We look after the maintenance of your fleet and you attend to your core business. In combination with our remote service, XpertAssist, information about your machines is transmitted to your Liebherr service partner who can identify and monitor the data output.

# Your reliable service partner

---

The combination of customer orientation, quality, innovation and dedication ensures a high level of service for you. With our well-organized worldwide network of experienced engineers and technical advisors, all trained by Liebherr, we provide shortest response times and maximum productivity.
