

Press release

Great flexibility and a large radius – Tamás és Zsolt Kft. takes delivery of LTM 1650-8.1

- The new 8-axle crane is the Hungarian crane service provider’s largest mobile crane
- Expertise and reliability – Tamás és Zsolt has been relying on Liebherr cranes for around 25 years
- Higher and stronger – the LTM 1650-8.1 is ideal for changed operating conditions

Tamás és Zsolt Kft. has added an LTM 1650-8.1 to its fleet to meet the increasing demand for cranes in the 700-tonne class. The 8-axle vehicle has a nominal lifting capacity of 700 tonnes, features VarioBallast®, is suitable for global mobility and can reach hoisting heights of 151 metres – making it suitable for the increasing demands placed on crane operations.

Ehingen (Donau), (Germany), 5 July 2024 – The LTM 1650-8.1 impressed the Hungarian transport and crane service provider Tamás és Zsolt Kft. with its high lifting capacities, Y-guying and compact dimensions whilst achieving a maximum lifting height of 151 metres : “It is not just lifting height and radius that are becoming ever greater for crane jobs, but the concrete elements for bridge or shed constructions are also becoming heavier and longer, meaning that demand for equipment in the class over 400 tonnes is also increasing in Hungary,” says company owner Tamás Lovas. “We are also receiving more and more enquiries for repairing wind turbines. We have added our new Liebherr LTM to our fleet to cover these jobs.”

Thanks to its fast and variable set-up options, the LTM 1650-8.1 provides Tamás és Zsolt Kft. with the flexibility it requires: “Whether with luffing jib or fixed jib, Y-guying or different ballasting options using VarioBallast® – the crane is not just suitable for a wide range of jobs, but can also travel on public roads with its jib,” says Tamás Lovas.

30th anniversary with 20 Liebherr cranes in the company’s fleet

From 35-tonne to 450-tonne cranes – Tamás és Zsolt Kft. already has 20 Liebherr cranes in its fleet. The Hungarian company is now expanding its portfolio upwards with the new 8-axle crane to mark its 30th anniversary. “If our customers want a powerful, compact crane, we can offer them an LTM 1400-7.1, for example. If a long boom is required, then our LTM 1450-8.1 is perfect. For special jobs that require great lifting heights and maximum performance, we now have a real trump card – our LTM 1650-8.1,” adds Tamás Lovas happily.

Tamás és Zsolt Kft. was founded in 1994 by Istvan Lovas, now has a 75-strong workforce and has been a regular customer of Liebherr for around 25 years. The company relies on Liebherr's expertise, flexibility and service. "We appreciate the fast delivery of spare parts and the fact that used cranes from Liebherr have a very high resale value. Thanks to our good partnership with Liebherr, we can offer our own customers flexibility, reliability and state-of-the-art machines for their jobs at all times," says Tamás Lovas.

About Liebherr-Werk Ehingen GmbH

Liebherr-Werk Ehingen GmbH is a leading manufacturer of mobile and crawler cranes. Its range of mobile cranes extends from 2-axle 35 tonne cranes to heavy duty cranes with a lifting capacity of 1200 tonnes and a 9-axle chassis. Its lattice boom cranes on mobile or crawler travel gear deliver lifting capacities of up to 3000 tonnes. With universal boom systems and extensive auxiliary equipment, they can be seen in action on construction sites throughout the world. The Ehingen site has a workforce of 5,000. An extensive, global service network guarantees the high availability of Liebherr mobile and crawler cranes. In 2023, the Liebherr plant in Ehingen recorded a turnover of 2.81 billion euros.

About the Liebherr Group – 75 years of moving forward

The Liebherr Group is a family-run technology company with a highly diversified product programme. The company is one of the largest construction equipment manufacturers in the world. It also provides high-quality, user-oriented products and services in a wide range of other areas. The Liebherr Group includes over 150 companies across all continents. In 2023, it employed more than 50,000 staff and achieved combined revenues of over 14 billion euros. Liebherr was founded by Hans Liebherr in 1949 in the southern German town of Kirchdorf an der Iller. Since then, the employees have been pursuing the goal of achieving continuous technological innovation, and bringing industry-leading solutions to its customers. Under the slogan '75 years of moving forward', the Group celebrates its 75th anniversary in 2024.
