

Press release

Liebherr acquires land in the USA for a new logistics site

In the state of Mississippi, USA Liebherr has acquired 480,000 square meters of land. The Liebherr Group plans to invest in a new logistics distribution center for spare parts to serve its customers in South and North America. In addition, the company intends to establish a campus on the site, where various business units from different product segments of the company will operate in the future. Liebherr aims to create around 180 new jobs in the region.

Oberopfingen, Germany, July 23, 2024 – On its new site in the Hive Business Park in Tupelo, Liebherr plans to expand its logistics network for the North and South American continents with a state-of-the-art spare parts logistics center, thereby strengthening its presence in the American market. The continental warehouse of Liebherr-Logistics GmbH will handle logistics and service operations, such as warehousing, distribution, value-added services – pre-assembly, kitting, repackaging – as well as customs and export services. With the establishment of the new logistics center in the USA, Liebherr aims to create around 180 new jobs in the region.

As the internal logistics service provider of the Liebherr Group, Liebherr-Logistics GmbH operates spare parts logistics for a number of different Liebherr production companies. With a staff of over 430 employees, Liebherr-Logistics GmbH provides logistics services for the product segments earthmoving machinery, components, concrete technology, tower cranes and maritime cranes, thus serving over 70 Liebherr Sales and Service Companies worldwide with more than 20 different product lines.

Since 2015, Liebherr-Logistics GmbH has been supplying its markets from Oberopfingen in southern Germany. In 2023, a second distribution warehouse was opened in Born, the Netherlands, to be closer to customers in Northern and Western Europe. Now, another logistics site is being added: In Tupelo, Mississippi, the Liebherr Group has acquired a plot of land with a size of 480,000 square meters, where it intends to build and operate a logistics distribution center for the American continent.

Further investments planned

In addition to the continental logistics centre, the Liebherr Group plans to establish additional facilities for various Liebherr companies and offer additional services on the acquired site in the future. The Liebherr Group plans to invest over \$200 million for the development of the future campus. The planned buildings will be used to render services and produce innovative products, meeting the highest technological standards. This underscores the family-owned company's commitment to working on solutions for the future in the field of product development, and building and strengthening long-term partnerships. In the long run, Liebherr plans to create over 300 new jobs on the campus.

About the Liebherr Group – 75 years of moving forward

The Liebherr Group is a family-run technology company with a highly diversified product portfolio. The company is one of the largest manufacturers of construction equipment in the world. It also provides high-quality, user-oriented products and services in a wide range of other areas. The Liebherr Group includes over 150 companies across all continents. In 2023, it employed more than 50,000 staff and achieved combined revenues of over 14 billion euros. Liebherr was founded by Hans Liebherr in 1949 in the southern German town of Kirchdorf an der Iller. Since then, the staff have been pursuing the goal of achieving continuous technological innovation, and bringing industry-leading solutions to its customers. Under the slogan '75 years of moving forward', the Group celebrates its 75th anniversary in 2024.
